

KEYLESS ENTRY FACILITY

If you wish to provide open & unfettered access (to everyone) to one window of your DUAL DOOR notice board, we are able to offer the optional extra of a 'Keyless entry' solution (as pictured) - using a factory fitted non-locking, thumbscrew style latch.

If required, please select this option under the options facility when ordering your board on our website (or by email) – and also let us know which side of the board you would like the keyless entry to be on (right or left window)
